EDUCATION

Rungta College of Engineering and Technology

B.Tech in Computer Science and Engineering

2022 – 2026

Bhilai, Chhattisgarh

Sardar Patel Public School

Higher Secondary Education

2020 – 2022

Bokaro, Jharkhand

EXPERIENCE

Krafzen Inc.

Oct 2025 – Apr 2026

Full-Stack Developer Intern

Remote

- Built and maintained full-stack features using React.js and Node.js, refactoring shared UI components to make pages load noticeably faster.
- Worked across the stack on two SaaS products, from initial build-out to deployment, coordinating with backend and design to keep sprints on schedule.
- Reviewed teammates' code regularly and fixed several architecture-level bugs that were causing recurring issues in production.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries: ReactJS, NextJS, Node.js, Express.js, Tailwind CSS, Shadcn UI

Databases: MongoDB, MySQL, PostgreSQL, Convex, Mongoose

Auth & Security: JWT, Bcrypt

Tools: Linux, VS Code, Git, GitHub, GitLab, Axios

AI Tools: GitHub Copilot, Cursor, Claude, OpenAI Codex, ChatGPT, Gemini

Core Competencies: Data Structures & Algorithms, Operating Systems, OOP, DBMS, RESTful API Design

PROJECTS

Google Docs Clone | *React.js, TypeScript, Convex, Clerk, Liveblocks*

- Built a collaborative document editor where multiple people can edit the same doc in real time, with changes syncing almost instantly across sessions.
- Used Liveblocks to handle live cursor tracking and presence, and Clerk for authentication and role-based access across different workspaces.
- Added margin controls, tables, image uploads, and export to PDF, HTML, TXT, and JSON.

Task Flow | *React.js, Node.js, Express.js, TypeScript, MongoDB, Tailwind CSS, Shadcn UI*

- Built a Kanban-style project management app with a REST API backend and a MongoDB schema designed around how teams actually organize tasks.
- Used TypeScript throughout to catch bugs early, and built a responsive UI that works well on both desktop and mobile.
- Implemented JWT-based auth with Bcrypt password hashing and middleware to protect routes and session state.

CERTIFICATIONS

DSA – Coding Ninjas: Comprehensive course covering fundamental algorithms and problem-solving techniques.

Web Dev Bootcamp – 30 Days Coding: Full-stack development covering HTML, CSS, JavaScript, and MERN stack.

Java Programming – Oracle: OOP concepts and Java fundamentals.

Git & GitHub – FreeCodeCamp: Version control workflows.

TECHNICAL ACHIEVEMENTS

Letter of Recommendation – Khadija Zain, CEO, Krafzen Inc.: Received an LOR recognizing strong full-stack skills and reliable, proactive work during the internship.

GeeksforGeeks: Solved 140+ coding problems.

Coding Ninjas: Solved 400+ problems, mostly in Java.

Hacktoberfest 2023: 4 PRs accepted; received digital goodies and a tree planted via Tree-Nation for open-source contributions.

AREAS OF INTEREST

Technology: IoT, open-source contributions, machine learning.

Problem Solving & Innovation: System design, microservices, agile development.

Continuous Learning: Staying current with emerging tools and software architecture practices.
