Education

Rungta College of Engineering and Technology
Bachelor of Technology in Computer Science and Engineering

Bhilai, India
2022 – 2026

Sardar Patel Public School
Higher Secondary Education (Class XII)

Bokaro, India
2020 – 2022

Experience

Krafzen Inc.
Full-Stack Developer Intern

Remote
Oct 2025 – Apr 2026

- Engineered responsive web applications across the full stack using React.js and Node.js, restructuring component lifecycles to cut initial render latency by 20%.
- Collaborated directly with product teams to build and deploy 2 core SaaS platforms and AI features, streamlining sprint workflows and shortening cycle times by 15%.
- Conducted 30+ peer code reviews and diagnosed critical architectural bottlenecks, reducing regression issues and codebase technical debt by 25%.

Technical Skills

Languages: Java, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Shaden UI

Backend & APIs: Node.js, Express.js, RESTful APIs, Middleware Architecture, Microservices

Databases & Backend-as-a-Service: MongoDB, MySQL, Convex, Mongoose

Auth, Tools & DevOps: JWT, Bcrypt, Git, GitHub, GitLab, Linux, VS Code, Postman, Axios

Core CS Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems

Key Projects

Google Docs Clone | *React.js, TypeScript, Convex, Clerk, Liveblocks*

- Built a real-time collaborative document workspace supporting concurrent sessions for up to 50 active users with low-latency state synchronization (<50ms).
- Integrated Liveblocks WebSocket pipelines for live presence and cursor tracking, implementing Clerk for secure role-based access control (RBAC).
- Implemented dynamic rich-text editing controls, structured tables, asset uploads, and multi-format document exporting (PDF, HTML, TXT, JSON).

Task Flow – Project Management Platform | *React.js, Node.js, Express.js, TypeScript, MongoDB, Tailwind CSS*

- Designed a high-throughput REST API with an optimized MongoDB schema, handling 200+ requests per minute under concurrent load.
- Constructed a cross-device responsive Kanban dashboard using TypeScript to eliminate runtime bugs and standardize end-to-end data schemas.
- Secured endpoints using stateless JWT session management and Bcrypt hashing, protecting state mutation routes with custom auth guards.

Certifications & Achievements

- Letter of Recommendation:** Commended by Khadija Zain (CEO, Krafzen Inc.) for technical execution, ownership, and reliability.
- Algorithmic Problem Solving:** Solved **400+ problems** on Coding Ninjas and **140+ problems** on GeeksforGeeks focusing on core data structures.
- Certifications:** Data Structures & Algorithms (Coding Ninjas), Full-Stack Web Development (30 Days Coding), Java Programming (Oracle).
- Open Source Contribution:** Merged 4 pull requests during Hacktoberfest 2023; recognized with a community tree planted via Tree-Nation.
